EMPLOYEE ENGAGEMENT

MEASURE THE VALUE BEYOND THE SAVINGS

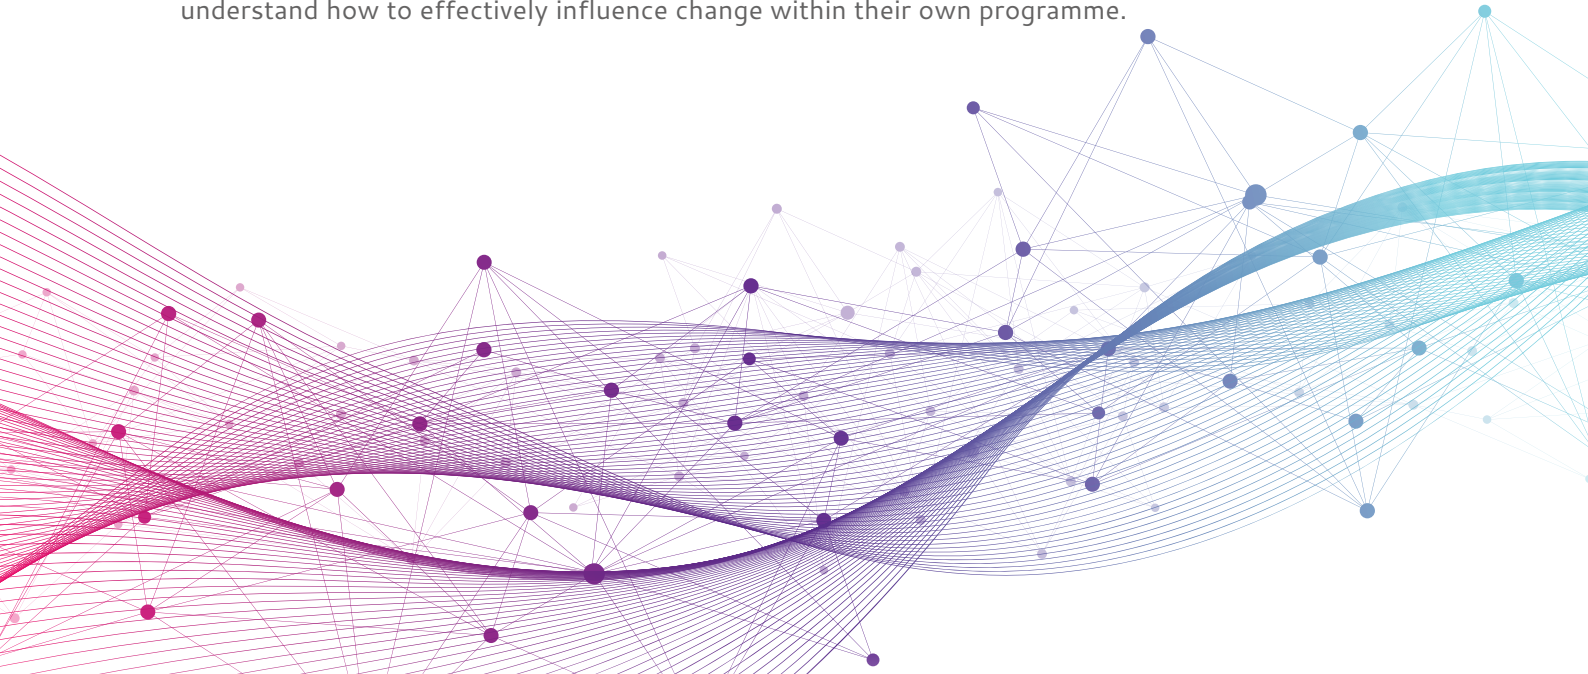

The ultimate goal of Employee Engagement is to understand how strategic sourcing decisions will impact travellers' experiences within a programme. To achieve this understanding, we offer our clients:

OBJECTIVE INSIGHTS

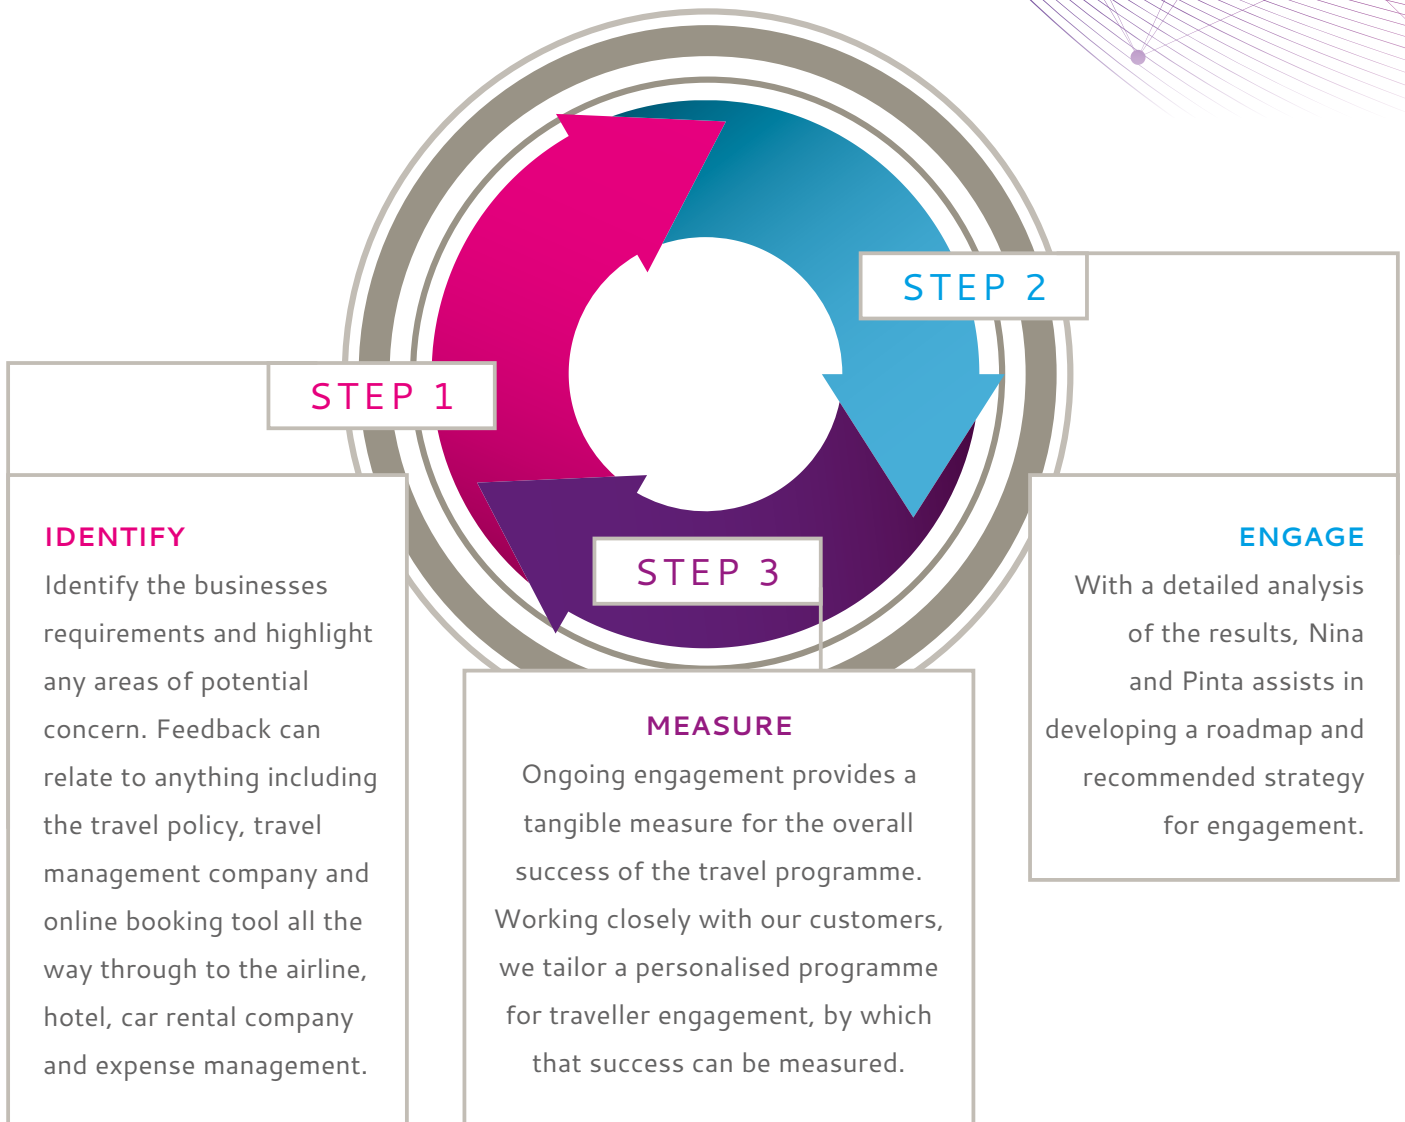

At Nina & Pinta, we are able to provide our customers with independent and objective insights regarding the experiences that travellers have had with travel management companies, online booking tools and preferred supplier programmes.

ACTIONABLE ADVICE

Through continued engagement, companies can also start building their own benchmark baseline to understand how to effectively influence change within their own programme.

EMPLOYEE ENGAGEMENT PROCESS

Clearly measuring the value of cost savings vs. traveller impact allows travel managers to close the ever-elusive feedback loop and ultimately create sustainable travel programmes.
